

Advertising Flags

Our premium advertising display flags have four basic designs: Bow, Teardrop, Premium 90, and Shark Fin. These flags are designed specifically for our premium poles and are made of a fiberglass/graphite composite. Additionally, the flag and pole are designed to maintain the flag shape to allow for visibility of your print/message even in windless conditions. Our ground spikes, bases and mounts make these flags a perfect solution for any location that requires easy set up and take down.
