

Water Weight Bag:

Constructed of heavy-duty vinyl/polyester tri-laminate with RF-welded seams, water weight bags add stability to your canopy. Because they can be filled on site, they are light and easy to transport. When full, each bag weighs 38 lbs.

Sand Weight Bag:

Secure your canopy and protect your investment by using our deluxe sand weight bags. Wide, drawstring openings allow for easy filling. Each bag holds 38 lbs of sand and attaches easily to the legs of your canopy.
